(Unaudited)

1. BASIS OF PRESENTATION

The consolidated financial statements include the financial statements of Enable IPC Corporation and Enable's subsidiary, SolRayo, Inc., under its effective control from its date of acquisition (October 1, 2008), after elimination of inter-company transactions and balances. The consolidated financial statements are presented in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates and such differences could be material. The Company has previously worked, and/or is currently working, on the following technologies:

- Nanostructures for possible use in microbatteries on microscopically thin film

- Other technologies, to be announced at a later date

The interim financial information is unaudited. In the opinion of management, all adjustments necessary to present fairly the financial position of the Company as of September 30, 2013 and the results of operations and cash flows presented herein have been included in the financial statements. Interim results are not necessarily indicative of results of operations for the full year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

These conditions give rise to substantial doubt about the Company’s ability to continue as a going concern. These financial statements do not include adjustments relating to the recoverability and classification of reported asset amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

3. OTHER LIABILITY

The Company recorded an increase in "other liability" as a result of its dispute with Steven Oshinsky and others (see Note 9, "Contingency").

4. RELATED-PARTY TRANSACTIONS

At December 31, 2013, the Company recorded owing $164,084 to related parties. Of the total amount, $146,938 was owed for services rendered to the Company and $17,146 was recorded for an outstanding loans to the Company. Both are summarized below.

Services

The Company owed $146,938 to stockholders for services to the Company. Of this amount, $86,938 was owed to ten shareholders for consulting services. In addition, the Company owed a total of $60,000 to Board members for services rendered.

Loans

The Company had an outstanding loan payable to a shareholder on December 31, 2013. The loan was for $40,000 at 13% interest per annum for a term of 24 months. The Company is required to make monthly payments of $1,905 for 24 months. As of December 31, 2013 the Company had made fifteen payments on this loan totaling $28,575 ($23,747 toward principal and $4,828 toward interest). Total principal remaining on this loan on September 30, 2013 was $17,146, which included $893 in past due interest.

5. LEGAL AND PROFESSIONAL FEES

We recorded $138,784 in legal and professional fees for the nine month period and $47,063 for the three month period ending September 30, 2013, which is unusually high when compared with the same periods in 2012 ($62,938 and $20,197 respectively). These fees primarily consist of activities relating to our dispute with Steven Oshinsky and others (see note 10, "Contingency").

6. WAGES AND SALARIES

We recorded $63,944 in wages and salaries, which is significantly higher when compared with the same period in 2012 ($20,197). This is due primarily to additional personnel and highly accelerated activities under our NSF Phase II effort, most of which consists of undergraduate and community college students, many of whom were hired under our supplemental programs.

7. RESEARCH AND DEVELOPMENT

We recorded $4,784 in research and development expense, which is unusually low when compared with the same period in 2012 ($17,809). The decrease is primarily due to a decrease in lab supplies purchased during the quarter. We expect to see an increase in research and development expenditures in subsequent quarters.

8. NET LOSS

We recorded a net loss of $102,515 during the quarter compared with a net profit of $151,850 reported for the same period in 2012. This loss is due to a combination of factors, primarily significantly lower revenue ($23,377 compared with $279,071), but also unusually high other expenditures (see Notes 5, 6 and 7).

9. CONTINGENCY

In September 2013, the company's subsidiary, SolRayo Inc., filed a lawsuit against Steven Jay Oshinsky, and others, in the Los Angeles Superior Court. The lawsuit contained claims against Mr. Oshinsky for breach of contract, intentional interference with prospective economic advantage, intentional interference with economic relationship, misappropriation of trade secret and injunction. Additional information on this action can be found in our quarterly reports for the periods ending September 30, 2013 and December 31, 2013.

While management presently believes that the ultimate outcome of these proceedings will not materially harm the company's results of operations, cash flows, or overall trends, legal proceedings and possible related government investigations are subject to inherent uncertainties, and unfavorable rulings or other events could occur. Unfavorable resolutions could include substantial monetary damages. Were unfavorable final outcomes to occur, there exists the possibility of a material adverse impact on our business, results of operations, financial position, and overall trends. It is also possible that we could conclude it is in the best interests of our stockholders, employees, and customers to settle one or more such matters, and any such settlement could include substantial payments; however, we have not reached this conclusion with respect to the matter at this time, nor do we expect to in the future.
